

# Is your programme telling you the truth?

Seven questions. Two minutes. No email gate. Forward it to whoever needs to see it.

## THE SEVEN QUESTIONS

- 01  Is your weekly steerco pack under six pages, written in plain English a CFO can act on?
  - 02  Does every RAID entry have a named owner and a decision date within the next 30 days?
  - 03  Has your steerco pack forecast matched the actual outcome for three cycles in a row?
  - 04  If your programme lead left tomorrow, could your sponsor read the current state from one written artefact?
  - 05  Is your squad the same people who started the engagement, or has turnover forced context resets?
  - 06  Do sponsors receive a written monthly narrative they can forward to the board without rewriting?
  - 07  Is cyber, privacy, or compliance tracked as a workstream, not a box-ticked-at-the-end?
-
